

# BIM4D

bim4d.eu

1

Improvement of knowledge regarding the use of BIM in end-of-life building practices and related needs.

2

Initiation of training programs on BIM application in end-of-life building practices, construction upgrades, and skills development for the demolition/deconstruction workforce.

3

Strengthening of policymaking for the digitalization of the demolition/deconstruction sector and sustainable waste management.

4

Sharing information and raising awareness about the use of BIM in end-of-life practices for buildings.
